

## CNS-RIKEN Joint International Symposium on Frontier of gamma-ray spectroscopy and Perspectives for Nuclear Structure Studies

**Date: April 3-5, 2008**  
**Place: RIKEN Nishina Hall**

### Main topics :

- Collectivities and shell effects in neutron/proton-rich nuclei
- Shell structure and stability of very heavy nuclei
- Exotic deformation / new collective motion at low and high spin
- Single particle motion in isomeric states
- Development of detectors and experimental methods

### Organizers:

E. Ideguchi (CNS)	<i>chair</i>
N. Aoi (RIKEN)	T. Ishii (JAEA)
T. Koike (Tohoku)	S. Michimasa (CNS)
T. Motobayashi (RIKEN)	T. Nakatsukasa (RIKEN)
A. Odahara (Osaka)	T. Otsuka (CNS/Tokyo)
H. Scheit (RIKEN)	S. Shimoura (CNS)
